

Halo Data Report Card

Tony Serra Ford (Sales only) | Dealer ID 21047 | Coverage No accepted weekly source (coverage unavailable) | unknown

Generated 2026-08-29T22:14:26.797Z | TEST report (not a customer deliverable) | Narrative: AI-grounded (offline test)

Executive summary

CATALOG MEASURES	SUPPORTED (CURRENT)	NO CURRENT VALUE	WITHHELD	UNSUPPORTED
19	0	8	11	0

Narrative mode: AI-grounded (offline test). **Live automatic narration:** unconfigured in this isolated instance (no live inference provider); this narrative was authored offline and validated by the evidence-constrained checker.

Tony Serra Ford has no accepted native source this week, so every catalog measure is withheld or has no current value; the card is coverage-first, and the leading recommendation is to restore the store Sales-only scheduled deliveries before any metric can be shown.

* No catalog measure has a current governed value this period, and nothing is shown as a zero.

* Leads and ROI and team communications are withheld; their scheduled sources are quarantined under the Sales-only data contract.

- Evidence-referenced claims (validated against accepted facts):
- No catalog measure has a current governed value this period, and nothing is shown as a zero. [gross.total_sum]
 - Leads and ROI and team communications are withheld; their scheduled sources are quarantined under the Sales-only data contract. [roi.total_leads, cage.total_comms]

Freshness and accepted sources

FAMILY	COVERAGE PERIOD	AGE (D)	FRESHNESS	ROWS	CHECKSUM
No accepted native source for this rooftop this period.					

Category scorecards

Appointments

METRIC	STATE	CURRENT	INDUSTRY (NON-SCORING)	DEALER BASELINE
Appointment show rate	MISSING	No current value (no current value for this period)	Directional, NON-SCORING: 50-65% (vendor-directional; source explicitly says no universal benchmark). Denominator incompatible (Demand Local (updated 2026-06-04) explicitly states there is no single universal show-rate benchmark. Foureyes defines Appointment Show Rate = shows appointments SET (support.foureyes.io, 2025-03-14); Studio computes shows appointment ROWS - different denominator. The Foureyes 2025-05-06 page is a SET-rate study (40% internet / 75% phone), NOT a show-rate target. Do NOT cite Foureyes for a 50% target and do NOT score.). Source: vendor blog (directional), confidence low; published 2026-06-04, verified 2026-08-28. https://www.demandlocal.com/blog/appointment-setting-show-rate-statistics/	Insufficient history: 0 of 3 governed periods on file.

METRIC	STATE	CURRENT	INDUSTRY (NON-SCORING)	DEALER BASELINE
Appointment no-show rate	MISSING	No current value (no current value for this period)	Directional, NON-SCORING: ~35-50% (DERIVED from the show-rate range; not a published sales no-show). Denominator incompatible (Derived from the show-rate range; the ~20% figure that circulates is a SERVICE number and must not be applied to sales. Non-scoring.). Source: derived estimate, confidence low; published 2026-06-04, verified 2026-08-28. https://www.demandlocal.com/blog/appointment-setting-show-rate-statistics/	Insufficient history: 0 of 3 governed periods on file.
Appointment confirmed rate	MISSING	No current value (no current value for this period)	No definition-compatible benchmark (Confirmation cadence is cited as a lever, but no sourced numeric confirmed-rate benchmark exists.).	Insufficient history: 0 of 3 governed periods on file.
Appointment cancel rate	MISSING	No current value (no current value for this period)	No definition-compatible benchmark (Unsourced - needs a benchmark (no public sales cancel-rate figure).).	Insufficient history: 0 of 3 governed periods on file.

Leads & ROI

METRIC	STATE	CURRENT	INDUSTRY (NON-SCORING)	DEALER BASELINE
Total leads (all sources)	WITHHELD	Withheld - Dashboard vs Lead Source ROI definitions diverge for the same period (e.g. Honda 89 leads/8 sold vs ROI 110/5); needs a governed Lead Source ROI native reader.	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.
Sold from leads	WITHHELD	Withheld - Dashboard vs Lead Source ROI definitions diverge for the same period (e.g. Honda 89 leads/8 sold vs ROI 110/5); needs a governed Lead Source ROI native reader.	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.
Duplicate-lead rate	WITHHELD	Withheld - needs Lead Source ROI dedup fields (no governed reader yet).	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.

Gross

METRIC	STATE	CURRENT	INDUSTRY (NON-SCORING)	DEALER BASELINE
Total gross	MISSING	No current value (no current value for this period)	No definition-compatible benchmark (Industry gross is a PER-UNIT figure (Haig ~\$3,298 front PVR, Q4 2024); Studio gross.total_sum is a TOTAL SUM across deals - incompatible grain/denominator. No scoring benchmark.).	Insufficient history: 0 of 3 governed periods on file.
Gross reconciliation mismatches	WITHHELD	Withheld - needs per-deal CRM Sales Gross rows (front+back vs total) - no governed reader yet.	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.

Team

METRIC	STATE	CURRENT	INDUSTRY (NON-SCORING)	DEALER BASELINE
Total rep communications	WITHHELD	Withheld - needs a governed Enterprise Performance / CAGE native reader (report not ingested here).	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.
Deals from leads	WITHHELD	Withheld - needs a governed Enterprise Performance / CAGE native reader (report not ingested here).	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.
Active reps	WITHHELD	Withheld - needs a governed Enterprise Performance / CAGE native reader (report not ingested here).	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.

Communications

METRIC	STATE	CURRENT	INDUSTRY (NON-SCORING)	DEALER BASELINE
Escalation-keyword messages	WITHHELD	Withheld - needs a governed Vin Sales Communication Log reader - prior Honda exploration lacks stable IDs and is not a 3-store daily feed.	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.
Template overuse	WITHHELD	Withheld - needs a governed Vin Sales Communication Log reader - prior Honda exploration lacks stable IDs and is not a 3-store daily feed.	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.
Inbound high-intent messages	WITHHELD	Withheld - needs a governed Vin Sales Communication Log reader - prior Honda exploration lacks stable IDs and is not a 3-store daily feed.	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.
Customers worked by multiple reps (24h)	WITHHELD	Withheld - needs a governed Vin Sales Communication Log reader - prior Honda exploration lacks stable IDs and is not a 3-store daily feed.	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.

Engagement

METRIC	STATE	CURRENT	INDUSTRY (NON-SCORING)	DEALER BASELINE
SMS reply rate	MISSING	No current value (hub reader exists but the three isolated stores hold no conversation data (0 threads) -> no current value.)	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.

METRIC	STATE	CURRENT	INDUSTRY (NON-SCORING)	DEALER BASELINE
Conversations held	MISSING	No current value (hub reader exists but the three isolated stores hold no conversation data (0 threads) -> no current value.)	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.
Safety-net resurrections	MISSING	No current value (hub reader exists but the three isolated stores hold no conversation data (0 threads) -> no current value.)	No definition-compatible benchmark (No neutral, definition-compatible external benchmark; judge against the dealer's own trend.).	Insufficient history: 0 of 3 governed periods on file.

Native performance detail

Dealership Performance (weekly)

Dealership Performance: no accepted source this period (no accepted dealership_performance delivery). Not shown as zero.

Appointments

Appointments: no accepted source this period (no accepted appointments delivery). Not shown as zero.

Ranked opportunities

#1. Correct the VinSolutions Sales schedule Lead-Intent selection to Sales-only

Owner: GM | Type: coverage_gap | Impact 5/5 | Confidence 95% | Score 4.75

TRIGGER

The ROI, CAGE, and daily Sales Communication scheduled reports positively select Service/Parts Lead-Intents (Parts, Service), so every delivery is quarantined whole under the Sales-only data contract.

ACTION

In VinSolutions report scheduling, set Lead-Intent to Sales-only (remove Acquisition, Parts, Service, Unknown), then re-deliver the affected weekly and daily periods so ROI, CAGE, and Communication metrics can land accepted.

RECIPIENT

General Manager / VinSolutions scheduling administrator

PREREQUISITES

VinSolutions report-scheduling access for each rooftop.

SAFETY LIMITS

Huminc makes no schedule change; this is a recommendation only. No customer or CRM action.

APPROVAL NEEDED

Explicit Duane approval before any VinSolutions schedule change.

EVIDENCE

roi.total_leads, roi.sold_from_leads, cage.total_comms, comm.escalation_keyword_screen

#2. Restore accepted Sales deliveries for Tony Serra Ford

Owner: GM | Type: coverage_gap | Impact 5/5 | Confidence 90% | Score 4.5

TRIGGER

No accepted native family exists for this rooftop this period: Dealership Performance and Appointments are absent, and ROI/CAGE are quarantined by the Service/Parts Lead-Intent contamination.

ACTION

Verify the scheduled Sales reports (Dealership Performance, Appointments, ROI, CAGE) are being delivered for this rooftop and are Sales-only, then re-deliver the current week.

RECIPIENT

General Manager

PREREQUISITES

VinSolutions scheduling access; confirmation the rooftop is enrolled in the governed feed.

SAFETY LIMITS

No data is fabricated; the report shows coverage-first until accepted data arrives.

APPROVAL NEEDED

None to investigate; schedule changes await Duane approval.

EVIDENCE

gross.total_sum, appt.show_rate

#3. Activate Huminic messaging and SMS engagement

Owner: GM | Type: huminic_opportunity | Impact 4/5 | Confidence 80% | Score 3.2

TRIGGER

Engagement metrics (reply rate, conversations, safety-net resurrections) have no governed source; the messaging hub has zero threads for this rooftop.

ACTION

Onboard the rooftop to the Huminic messaging hub so reply rate, conversations held, and after-hours resurrections become measurable and coachable.

RECIPIENT

General Manager

PREREQUISITES

Standard Huminic workspace onboarding.

SAFETY LIMITS

No outbound messaging is activated in this test; onboarding only.

APPROVAL NEEDED

Standard onboarding approval; no automation is enabled here.

EVIDENCE

engagement.reply_rate, engagement.conversations, engagement.resurrections

#4. Accumulate at least 3 governed weekly periods to unlock the dealer baseline

Owner: GM | Type: coverage_gap | Impact 2/5 | Confidence 90% | Score 1.8

TRIGGER

Only one accepted weekly period exists, so a dealer-baseline trend and z-score band cannot be computed yet.

ACTION

Keep the weekly Sales-only deliveries flowing; the dealer baseline unlocks once three governed periods are accepted.

RECIPIENT

General Manager / Huminic

PREREQUISITES

Continued accepted weekly deliveries.

SAFETY LIMITS

None; measurement only.

APPROVAL NEEDED

None.

EVIDENCE

coverage gap (no metric yet)

Coverage ledger (all 19 catalog measures)

SLUG	METRIC	CATEGORY	STATE	RESULT / REASON
appt.show_rate	Appointment show rate	Appointments	MISSING	No current value (no current value for this period)

No accepted sources.				

References (industry context - non-scoring)

- **Appointment show rate (and related appointment rates)** - directional, NON-SCORING range 50-65% (vendor-directional; source explicitly says no universal benchmark). Denominator incompatible: Demand Local (updated 2026-06-04) explicitly states there is no single universal show-rate benchmark. Foureyes defines Appointment Show Rate = shows appointments SET (support.foureyes.io, 2025-03-14); Studio computes shows appointment ROWS - different denominator. The Foureyes 2025-05-06 page is a SET-rate study (40% internet / 75% phone), NOT a show-rate target. Do NOT cite Foureyes for a 50% target and do NOT score.. Source type: vendor blog (directional); confidence low; published/updated 2026-06-04; verified by Huminic 2026-08-28. URL: <https://www.demandlocal.com/blog/appointment-setting-show-rate-statistics/>

Limitations

- Sales-only: Service and Parts are excluded (they belong only to the separate combined Serra Service workspace).
- 11 measure(s) withheld pending governed readers (ROI -> Lead Source ROI; comm.* -> Vin Sales Communication Log; cage.* -> Enterprise Performance/CAGE; gross.reconciliation_mismatches -> per-deal CRM Sales Gross).
- 8 measure(s) have no current value this period (empty/absent governed source).
- Industry references are directional and NON-SCORING where no definition-compatible standard exists; benchmarks are never scored.
- Dealer baseline: insufficient history (fewer than 3 governed periods) - non-scoring.

Huminic Halo - isolated dev TEST report for Tony Serra Ford. Missing and withheld measures are shown explicitly and are never counted as zero. Sales-only; no Service or Parts data is included. ROI, CAGE, and Communication metrics are withheld because their VinSolutions scheduled reports positively select Service/Parts Lead-Intents and are quarantined by the Sales-only contract.
